

Mama Bird Nest Necklace

Below is the complete step-by-step jewelry tutorial.

SUPPLIES YOU'LL NEED TO CREATE THIS PROJECT:

- Pearl Beads
- Necklace Chain
- 24 Gauge Wire
- Needle Nose Jewelry Pliers

You can use any color beads that you want. There are no rules! You could even go with a birthstone color. How cute would that be?

NECKLACE TUTORIAL:

Before you begin, decide how many eggs you want in your nest...or beads in your necklace.

Start by stringing the beads onto the wire.

Then wrap the wire around the beads to get a nest-like look.

Continue wrapping around the beads until you like the look. Then, wrap the wire *around the existing nest* to keep everything together. Here's what the back of my nest looks like.

Once you are happy with how the nest looks, you need to make a loop to attach it to your chain.

Attach the charm to your necklace, keep then wrap the wire around the hook to make it nice and secure.

And that's it!
